

**Status of GMP Training Module 14**

Malaysia have received two comments from Singapore and Indonesia.

Comments from Indonesia with regards to reporting format, ASEAN Expert from Philippines has answered it and Malaysia concurred with her and it is not necessary to make changes to the slides. The country is encouraged to use the recommended format for reporting during their daily operation.

Malaysia have incorporated some of the comments from Singapore. The remaining comments from Singapore are operational in nature of which Malaysia is in the opinion that it can be discussed at the next GMP task force meeting or during upcoming ACC meeting.

ASEAN Expert from Philippines will proof read the document again and any changes will be forwarded direct to Jessica. Malaysia consider these two documents are final. Thus ASEAN officer may proceed to submit to the ASEAN-EC Team Leader.
